Sahiwal
BACHELOR IN COMPUTER SCIENCE COMSATS University Islamabad

Address COMSATS off GT road Sahiwal, Sahiwal | **Website** https://sahiwal.comsats.edu.pk/

LANGUAGE SKILLS

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	B2	A2	B1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Backend

RoR(Ruby on Rails) | StrapiCMS

Frontend

React Js | Next JS | Ant Design | Bootstrap

Deployment

AWS Deployment | AWS (RDS, S3 Bucket, EC2, Elastic Cache, IAM, Redis Cluster) | Heroku Deployment

Database

SQL(MySQL, SQL Server) | Postgres | SQLite

Project Management / communication

Git: GitHub, Bitbucket | Monday.com and Slack for workflow management

ADDITIONAL INFORMATION

PROJECTS

Autobuffy AutoBuffy website is an E-commerce platform that offers a wide range of Auto spare parts and accessories for vehicles. Customers can browse through the catalog, select the parts they need, and place an order online. It is built on React Js, Ruby On Rails(ROR), and Postgres.

BuffyHub The BuffyHub Inventory website is used to synchronize the inventory files from FTP and keep the main app https://autobuffy.com/ updated at all times.
I have created this project using the following technologies. React, Ruby on Rails, Postgres.
and deployed this app on AWS using Capistrano, and I have to use the following things on the server.
EC2, RDS, S3 Bucket, Redis Cluster, Elastic cache, etc.
this app is also deployed on Heroku, a project management tool used Monday. com, for communication, use slack.

Research Buddy Research Buddy is a reference management software that is designed to help researchers and academics manage and organize their research papers, articles, and other related documents.
Research Buddy allows you to organize your research using tags, folders, and other filters, making it easy to find and retrieve specific papers or documents. Additionally, the software includes a powerful search feature that allows you to search your entire library, as well as online databases, for new research papers or articles.
Another useful feature of Research Buddy is its ability to generate citations and bibliographies in a variety of citation styles, including APA, MLA, and Chicago. This can save you a lot of time and effort when writing research papers or articles, as it eliminates the need to manually format your citations and bibliography.

I have created this app using the following technologies.
React js and ROR, for version control using git and GitHub, project management tool use Monday. com, for communication, use slack.

Nizame-Taleem Nizame-Taleem is a school management system designed to help educational institutions manage their day-to-day operations.
One of the key features of Nizame-Taleem is its student information management module, which allows schools to store and manage student data and academic records. The module includes tools for tracking attendance, exam marks, and generating reports.
I have created this app using the following technologies.
React js, Bootstrap, and RoR. and for version control using git and Bitbucket, project management tool use Monday. com, for communication, use slack.

AwaazDy AwaazDy Website offers a user-friendly interface that allows customers to browse and purchase a wide variety of groceries and household items from the comfort of their own homes.
I have created this app using the following technologies.
React js, Bootstrap, and RoR. and for version control using git and Bitbucket, project management tool use Monday. com, for communication, use slack.
